

Flexible Nasopharyngoscope Model ENT 3.6FP

Precision endoscopy with proven performance

ENT 3.6FP with Detachable Light Guide

Our ENT 3.6FP series Flexible Nasopharyngoscope offers high-resolution image quality by virtue of their superior optics, illumination and wide field of view, packaged in a lightweight, sleek design that is easy and convenient to use. Ideal for a variety of minimally invasive diagnostic and surgical applications. The ENT 3.6FP is available to meet your clinical needs.

The ENT 3.6FP detachable light guide connection gives the physician options for connecting to a light source. The Optim ENT 3.6FP is compatible with the Optim Portable LED Light Source. This portable solution eliminates the need for external light sources and lamp replacement and allows for the freedom to move from room to room.

Contact us for more information on the Portable LED Light Source
