

SURGICAL ENDOSCOPES

ENT SINUSCOPES

BR Surgical guarantees a German-engineered endoscope with premium image brightness and optical clarity that is designed and constructed for long lasting performance. Our service team is dedicated to keeping you in business with fast, fair, and cost-effective service solutions.

**High quality construction and superior optics make this scope a long-lasting value.
Excellent customer service and support make it a smart purchase.**

Clearly a Better Scope

SUPERIOR VISUALIZATION & DURABILITY:

We can guarantee a brilliant high definition image because we control the construction of your endoscope from start to finish, from optical calculation to glass rod production. BR Endoscopes provide maximum protection against degrading influences of reprocessing.

FIBER OPTICS & ILLUMINATION:

- **Tapered fiber cone** = better light amplification
- **High transmission wide angle illumination fibers** = superior light transmission

LONG LASTING PERFORMANCE:

- **Proximal & distal sapphire window** = scratch resistant, no glass corrosion
- **Medical grade stainless steel tubing** = stronger, more durable material
- **No coatings** = eliminates chance of coatings coming off during reprocessing over time
- **Laser welded joints** = seals fiberoptic illumination bundles hermetically from the optical train, to avoid humidity and chemical penetration
- **Laser welded joints** = increases strength between scope body and sheath
- **Hydrophilic gas-filled optical train** = anti fogging device

Authorized Distributor

All BR rigid endoscopes are autoclavable and come with a one year warranty against materials and workmanship

OVER 20,000 SURGICAL INSTRUMENTS & PROCEDURE SETS • ENDOSCOPIC VIDEO EQUIPMENT & RELATED MEDICAL DEVICES
