

The ENTity Series of Flexible Fiberoptic Nasopharyngoscopes can be used virtually anywhere you need to be. It is the only flexible endoscope that carries a guaranteed two (2) year warranty due to its reliability and durability. Our patented OptiLux integrated LED illumination system eliminates cumbersome external light boxes while providing exceptional visibility, making the endoscope completely portable. The OptiLux lighting system within the endoscope handle provides superior lighting targeted in the 5500K color temperature range for superior tissue color differentiation.

Industry's only Nasopharyngoscope with Self-Contained Light Source & 2-Year Warranty

ENTITY
SDXL

ENTity SDXL features a slimline 2.7mm insertion shaft making it the preferred choice for diagnostic evaluation of narrow upper airway passages in both adults and children.
